A Glimpse into Our Company's Essence

In the dynamic tapestry of technological innovation, our company emerges as a distinguished architect of progress, embodying a legacy of over a decade within the intricate landscape of the IT industry. At the heart of our narrative lies the profound ethos of being a "modern-age" entity, a testament to the collective spirit of our team a cadre of youthful, dedicated, and astute tech enthusiasts. United by an unwavering commitment and insatiable curiosity, we confront complex business challenges with the precision of artisans crafting bespoke solutions.

Our specialized focus extends to the meticulous development of superior websites, avant-garde mobile applications, bespoke IoT and eCommerce solutions. Beyond the conventional, we transcend boundaries, offering strategic consulting services that act as a compass, guiding enterprises to recognize and seize optimal opportunities within their respective industries.

Our distinction lies not only in the deliverance of cutting-edge technological solutions but in the orchestration of a symphony where each team member plays a vital note, contributing to our collective crescendo of success. With an unwavering commitment to excellence, fortified by a convergence of dedicated personnel and state-of-the-art technology, we boldly navigate challenges, ensuring not only cost-effective solutions but the timely delivery of every project.

In myriad ways, our company stands as the quintessential one-stop solution for all your technology needs. A sanctum where the nexus of creativity and functionality converges, and innovation is a way of life!

Our Vision

Inspiring innovation, forging meaningful connections, and propelling transformative change.

Our Mission

In the realm of bytes and algorithms, our pursuit is not just about codes and systems; it's a relentless endeavor to infuse businesses with IT resources and services that transcend the mundane. At the heart of Aciano beats the rhythm of innovation, a symphony of excellence, and a commitment to seamless integration that propels our array of solutions beyond the ordinary. In our world, passion fuels every line of code, and transformative technology isn't just a tool it's a medium to shape destinies. With Aciano, the future isn't a destination; it's a journey where every step is a stride towards progress, and every innovation is a gateway to a world where the potential knows no bounds.

Resource Outsourcing

As the premier global resource provider, we take pride in curating a team of exceptional IT professionals dedicated to seamlessly realizing our clients' technical aspirations. Our commitment to excellence fuels an ongoing expansion of outsourcing capabilities, ensuring we stay ahead of the dynamic market demands.

Our seasoned Project Managers skillfully orchestrate project execution, while our specialized Resource Outsourcing services stand as a cornerstone for tailored client solutions. In the realm of Software Development, we offer a comprehensive suite of services designed to propel technological innovation and drive business success.

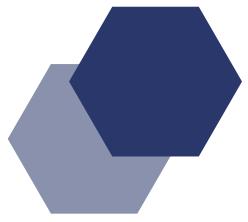

In the sophisticated domain of Microsoft Dynamics 365, our Technical Resource Outsourcing services showcase our mastery in harnessing cutting-edge technologies. Our DevOps Consultants bring a strategic edge to outsourcing, optimizing processes for heightened efficiency and unparalleled results.

Dedicated to software integrity, our Resource Outsourcing for Software Quality Assurance (SQA) Engineers ensures robust and reliable software solutions. Our UI/UX Designers, meticulously selected through outsourcing, inject a perfect blend of creativity and functionality into user experience design.

With every new client, our commitment to exceeding expectations solidifies our position as the preferred choice for those seeking not just IT expertise, but a strategic partner dedicated to the relentless pursuit of excellence.

Cloud Services & Automation

We build modern Cloud applications that help reduce the total cost of ownership, increase security, stability and support the evolving needs of your business.

We are experts in Cloud automation by moving desktop applications to cloud, automating manual processes and helping software development lifecycle smoother and easier.

Application Modernization:

Igniting Digital Evolution for Legacy Apps, User Experiences, Custom Designs, and Front-End Innovation.

Cloud Native App Development:

Crafting Cloud-Native Applications for Scalability, Optimization, Reliability, and Distribution, harnessing the power of Node.js, React.js, and Angular.

Cloud Consulting Services:

Specialized Cloud Consulting for Domain-Specific IOT and Headless Web Applications, offering Expertise in AWS and Azure Consulting with Seamless Migration Solutions.

Cloud Enablement:

Architecting a Robust Cloud Solution from Strategic Planning through Design, Rigorous Testing, Smooth Migration, Seamless Integration, to Successful Deployment.

Cloud DevOps:

Accelerate your software release cycles, enhance operational efficiency, and streamline the automated software delivery and deployment processes.

Driving Digital Transformation with AWS AppStream 2.0 (AS2)

At Aciano Technology, we are your trusted architects of innovation, ensuring a seamless transition into the digital future. Our expertise in AWS AppStream 2.0 (AS2) is your gateway to a world of possibilities. Let's journey through the canvas of transformation.

Windows Environment Setup (Image Creation):

Imagine a blank canvas, waiting for us to craft a masterpiece - your customized AS2 environment.

Installation of Apps & Pre-requisites:

Each application is a brushstroke, carefully chosen to fit your needs.

Identifying AWS Support Services:

We connect the dots with AWS Managed Services to ensure your apps run flawlessly.

AWS Directory Service (Active Directory):

Your AS2 ecosystem is like a well-orchestrated symphony, AWS Managed Active Directory conducts it.

AWS SSO for Authentication:

Access is granted with elegance; AWS Single Sign-On opens the gateway to your AS2 stack.

AWS Managed Windows File Server (FSx):

Your data is a treasure; we keep it safe with AWS Managed Windows File Server.

AWS IAM and Roles Creation:

Secure and controlled, thanks to our meticulous role and identity management.

Code Changes on Legacy Apps:

We breathe new life into your legacy apps, adapting them for AWS DB services.

Configuring Security Groups & Roles:

We build digital fortresses, ensuring your data's security is second to none.

Create New Active Directory:

With precision, we craft a new Active Directory, a foundation for user and group policy management.

Database Restoration:

Your data is not lost in the transition, but rather reborn.

Administration System Manager (ADAS Tools):

The conductor's baton, ADAS Tools, orchestrates your AS2 environment with finesse.

Web API for Active Directory Users/Groups:

A bridge to your user and group policies, custom-designed for you.

User Access Management:

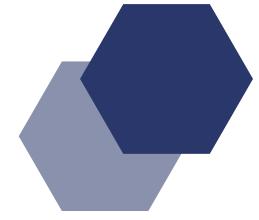

User access is a breeze, and we ensure its secure and controlled.

Testing:

Before the curtain rises, we thoroughly rehearse, ensuring your AS2 performance is impeccable.

Welcome to the future of cloud-based application delivery with Aciano Technology. Let us paint your digital masterpiece with AWS AppStream 2.0.

IoT Solutions

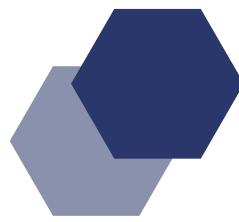

Our IoT services are designed to help you connect your devices and leverage the power of data to improve efficiency, reduce costs, and enhance the customer experience.

- Remote Monitoring for General Industries and OEMs.
- Automated Metering Infrastructure (AMI) for Electricity, Water, etc.
- IAQ Monitor.
- Advance Asset Management.
- Industrial/Home Automation

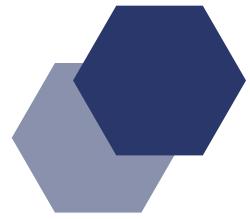

Microsoft D365 Consultancy

In the intricate network of Microsoft partners spanning the Middle Eastern & Asian region, our distinction stands out like a beacon—we proudly bear the esteemed title of Gold Partner for an impressive decade. Throughout this illustrious journey, we have remained unwavering in our mission, diligently guiding organizations to embrace the transformative potential of cloud-based infrastructure for finance and operations within the secure embrace of the Microsoft environment. Our enduring commitment to excellence is not merely a testament to our partnership; it serves as a guiding light, illuminating the path towards innovation and security for our valued clients.

MS Teams App Development

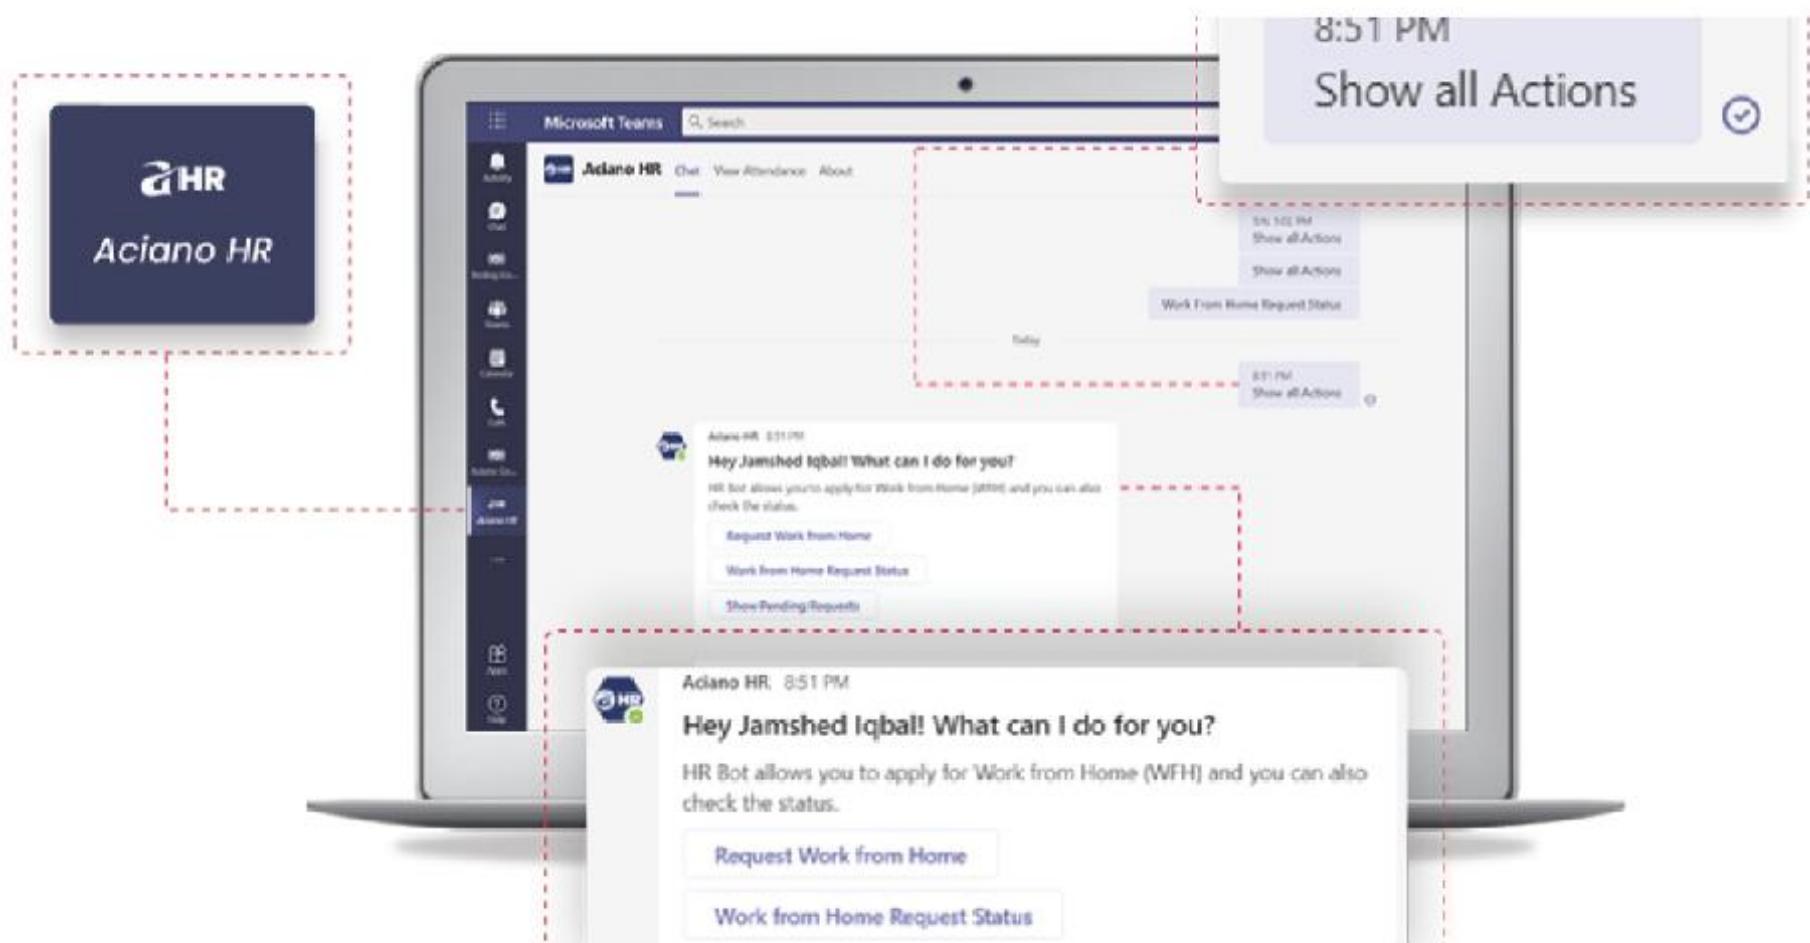

Our collaboration with Microsoft involves the development and implementation of Microsoft Teams apps. A recent accomplishment includes the deployment of the HBL Communicator in Habib Bank Limited (HBL) in Pakistan. This initiative signifies our commitment to leveraging Microsoft Teams to enhance communication and productivity.

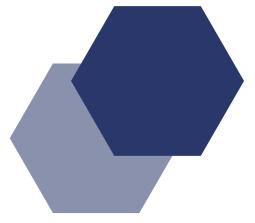

The HBL Communicator, a result of our partnership with Microsoft, is tailored to meet the unique communication needs of HBL. This deployment reflects our dedication to providing customized solutions that align with the specific requirements of our clients.

Through this collaboration, we aim to streamline communication channels and optimize collaboration within HBL, contributing to increased operational efficiency. This successful deployment serves as a testament to our expertise in delivering tailored solutions for elevated communication platforms, driving digital transformation in the financial sector.

Our ongoing collaboration with Microsoft emphasizes our commitment to innovation, ensuring organizations like HBL can thrive in the modern digital landscape.

eCommerce Solutions

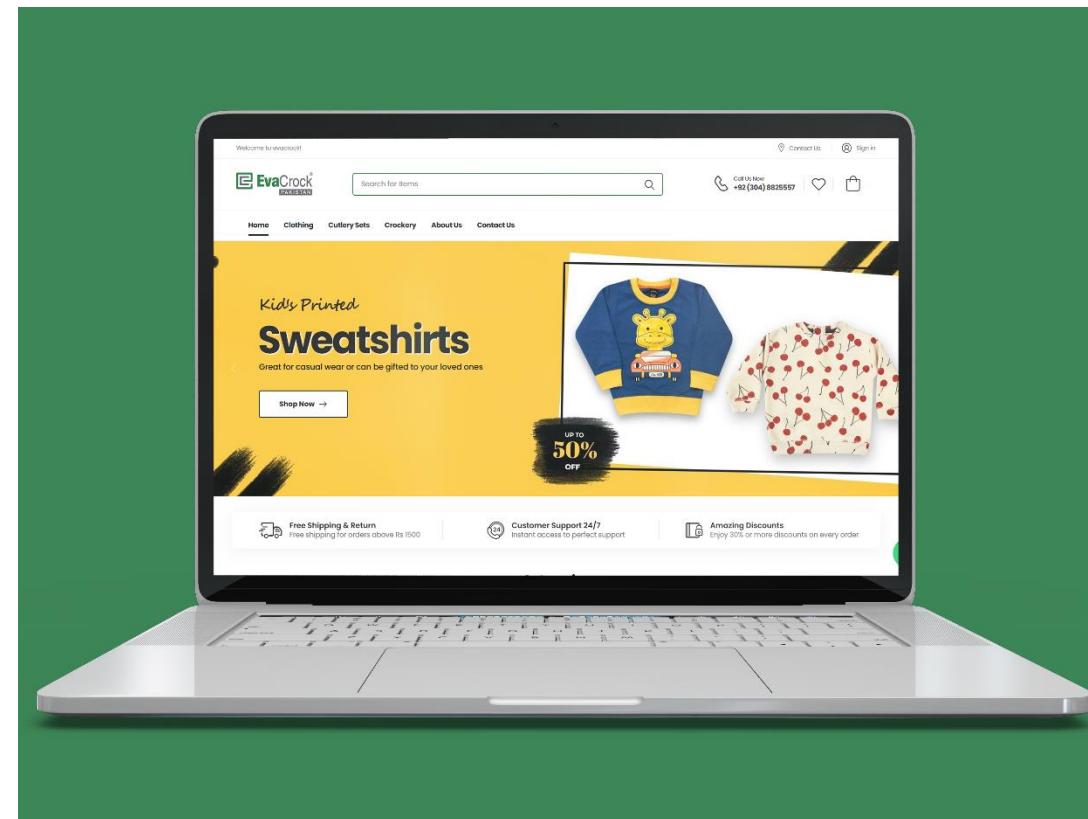

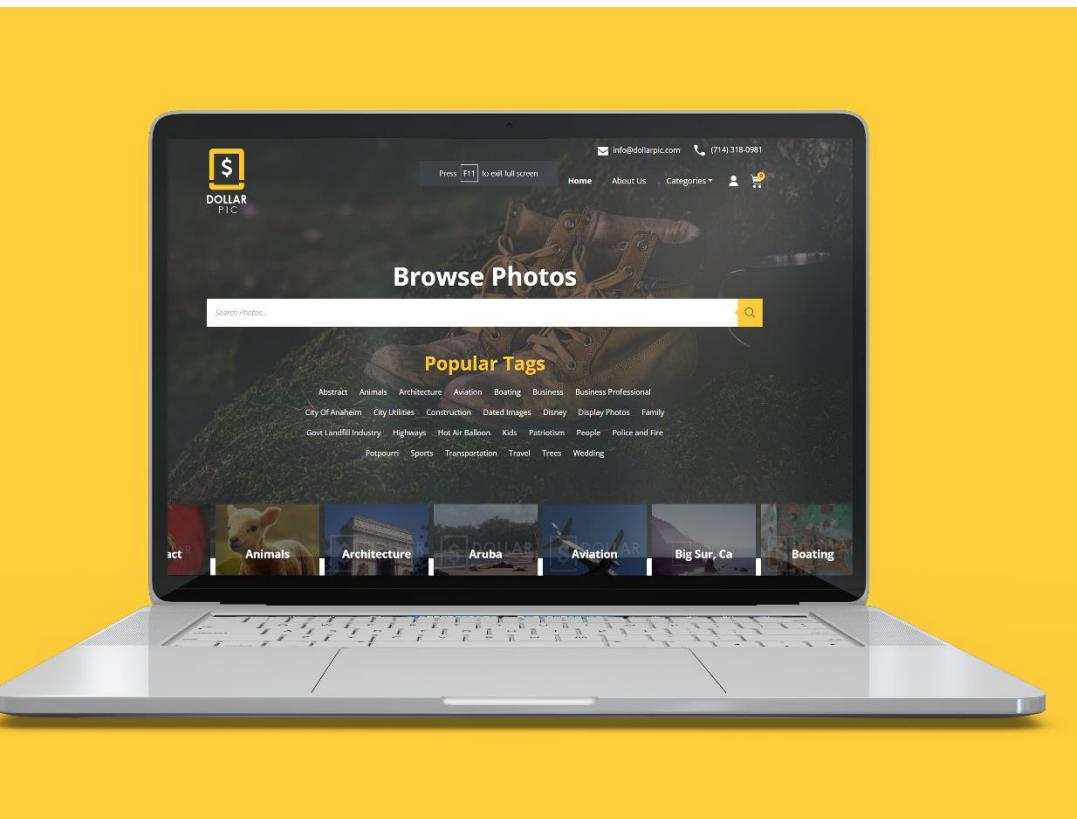

With a wealth of experience and a kaleidoscope of cross-domain expertise, we emerge as the maestros of eCommerce development. Picture us as your virtuoso guides through the digital realm, offering not just services but a symphony of solutions tailored to conquer your challenges.

Imagine a journey where every challenge becomes a stepping stone to success. We don't just provide expert advice; we craft strategies that dance with innovation, transforming hurdles into opportunities. Our suite of eCommerce development services is a masterpiece, finely tuned to turn your vision into a captivating reality.

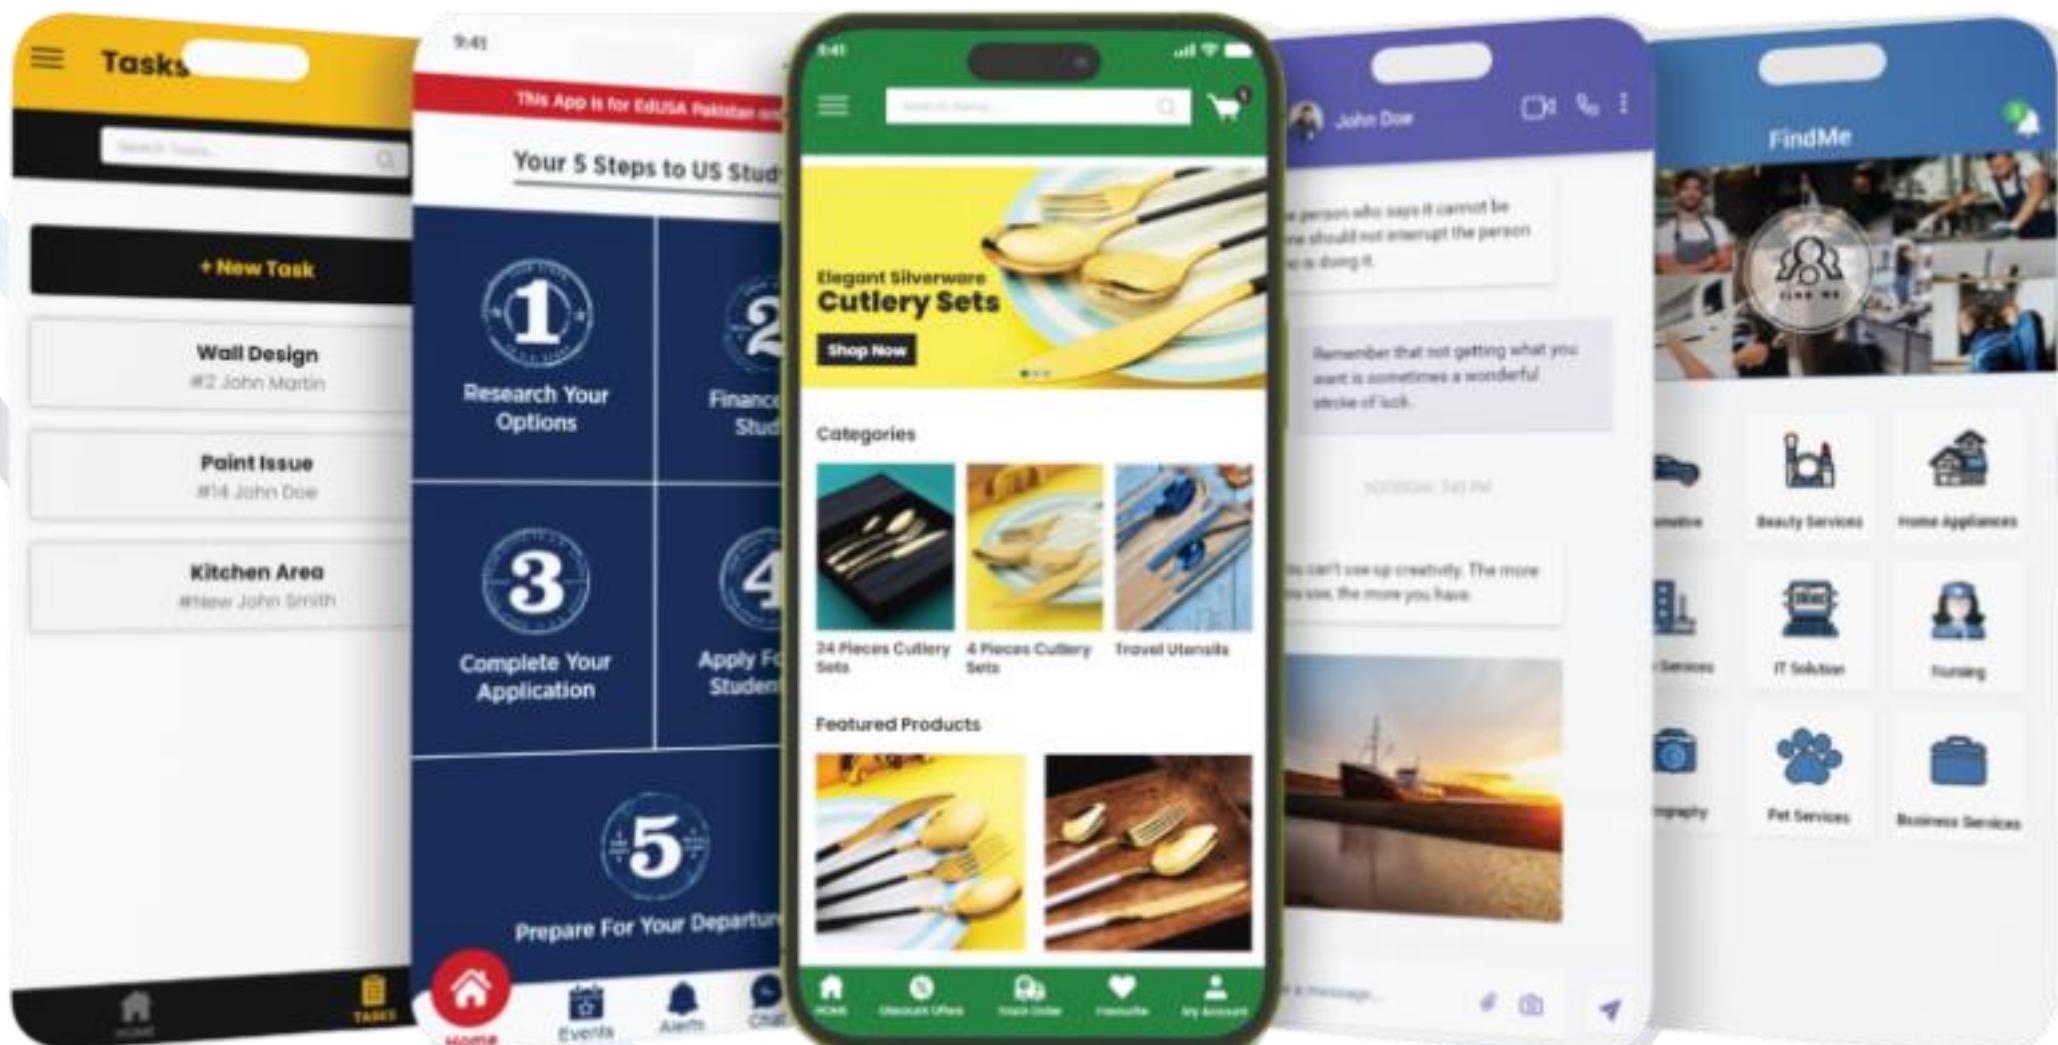

But our tale doesn't end with development; it evolves into a saga of comprehensive maintenance services. Like meticulous guardians, we ensure your digital landscape not only survives but thrives, leaving our clients not just happy but euphorically satisfied.

In this grand narrative of eCommerce prowess, we've composed a melody of success, where challenges are but notes in a crescendo leading to triumph. Welcome to the symphony of satisfaction; your eCommerce odyssey begins here.

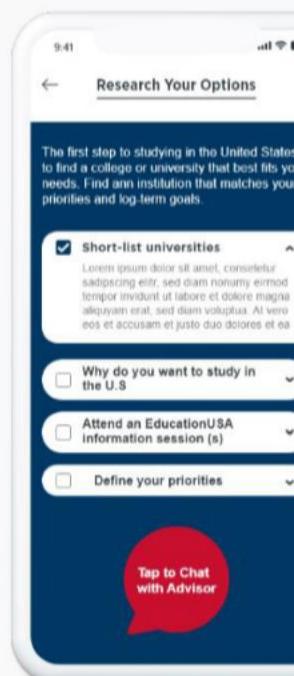

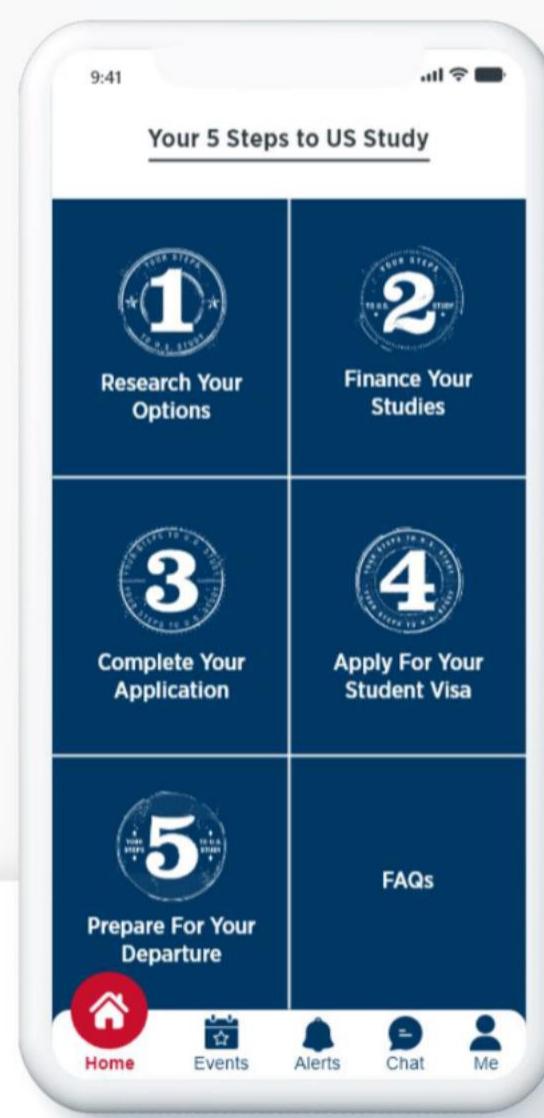

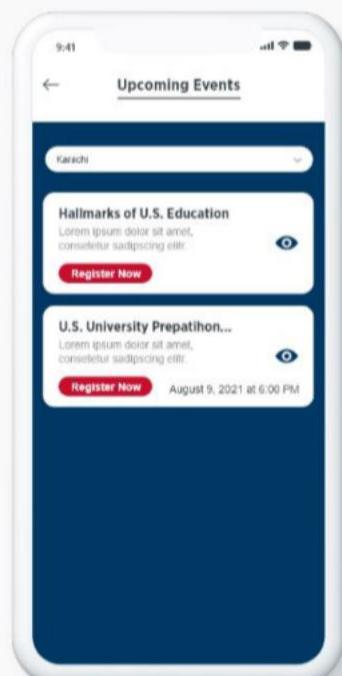

Mobile Applications

At Aciano Technologies, we sculpt the future of business with next-gen mobile app solutions. Our track record boasts 25+ user-centric, secure apps for major local Fintech players. From crafting applications for Mystery Shopping to powering Event Management, Consulting Services, and global eCommerce marketplaces, we turn ideas into digital reality, setting the pace for innovation in the business world.

MEETING THE CHALLENGES

The website interface features a dark header with a yellow dollar sign logo and navigation links for Home, About, Categories, Pricing, Contact, and Log In. Below the header is a search bar and a "Browse Photos" section. A "Popular Tags" section lists categories like People, Women, City, Nature, Animals, Family, Fashion, Beauty, Men, Women, and Events. A grid of thumbnail images includes a sunset, a white cat, mountains, a hand holding a rose, a couple, and a woman smiling.

A large section titled "The Most Inspiring Images" displays a 4x4 grid of various photographs, including a person working on a plant, a building, a Christmas tree, a woman smelling a rose, a person in a yellow jacket, a graffiti wall, a couple walking, a close-up of a cat, a sunset, a person taking a photo, and a landscape.

The bottom section of the page features a sidebar with a "Categories" dropdown menu containing items like People, Women, Men, City, Nature, Animals, Family, Fashion, Beauty, Men, Women, and Events. It also includes a "The Most Inspiring Images" section with a smaller grid of images and a "Load More" button. The footer contains a "DOLLAR" logo, a "ABOUT US" section with links to Privacy Policy, Terms & Conditions, and Contact information.

The footer continues with a "CONTACTS" section listing a phone number (010-123-4567), email (info@dollarpic.com), and a "Design by Aciano Technologies" credit.

Content Marketing

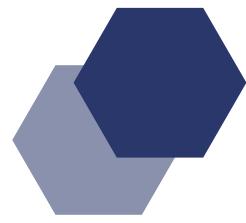

Email Marketing

The central graphic is a large, bold, dark-colored word "MARKETING". Surrounding this word are several smaller panels and charts, each containing different marketing-related information and data. These include:

- A yellow square at the top left containing a flowchart with steps 01 and 02.
- An orange square below it containing a diagram of three interconnected circles labeled 01, 02, and 03.
- A white square in the center containing a world map and some text.
- A blue square on the right side containing a bar chart titled "MARKETING OVERVIEW" with categories like "General Info", "Books", "Medical", etc.
- A red square at the bottom left containing a line graph.
- A green square at the bottom right containing a pie chart.
- Several sticky notes of different colors (yellow, orange, red) scattered around the main word, each with handwritten text and small diagrams.
- A large blue square at the bottom left containing the word "BRAND" in large letters and a grid pattern.
- A white square at the bottom left containing the word "SIMPLICITY" and a small mountain icon.
- A blue square at the bottom right containing the word "CREATIVE MOVEMENT" and some descriptive text.
- A white square at the bottom right containing a Venn diagram with numbers 01 through 11.
- A white square on the far right containing a grid with letters A, B, C and numbers 1, 2, 3.

Search Engine Optimization

Aciano Technologies is your esteemed partner in advancing your digital footprint through strategic Search Engine Optimization (SEO). Our seasoned team of SEO specialists is dedicated to orchestrating organic growth, elevating your website's visibility, and securing prominent rankings on search engine results pages.
